

Visio Mapping and Map Scoring Training

The Mine Simulation Lab at the National Mine Academy is offering a Visio Mapping and Map Scoring Training Class for all interested Mine Rescue Team Members, Mine Rescue Problem Designers, Mine Rescue Map judges and persons involved in Mine Accident Investigation work.

The training class will include the following:

- Introduction to Microsoft Visio including the saving of the completed map or drawing
- Review of Drawing a Scaled Map or Drawing
- Review of the Map Symbols (Stencils) used for both Mine Rescue Maps and Accident Investigation Drawings
- Mapping of Items or Conditions Encountered by a Mine Rescue or Accident Investigation Team
- Introduction to Mine Rescue Contest Map Scoring Protocols and Procedures including the use of a scanner for scanning and saving “hand drawn” paper maps

The Visio Mapping and Map Scoring Class is an eight (8) hour class.

A minimum of two (2) persons and a maximum of six (6) persons are required for a Training Class to be conducted.

Class participants may bring their own computers that are equipped with Microsoft Visio 2010 or 2013 to the training class, or computers will be provided by the National Mine Academy.

Interested persons should contact either Harold “Chip” Clay at (304)256-3256 or by email at clay.harold@dol.gov or Mack Wright at (304)256-3262 or by email at wright.mack@dol.gov to schedule a class.
